THE WHITMER-JACKSON CO.

## Introduction

THIS catalogue is issued to present to Dealers, Architects and Builders, our designs of stock millwork carried in our warehouses at

Cleveland, Ohio      Buffalo, New York  
Rochester, New York

- ¶ We feel that our customers, The Retail Lumber Dealers, will find this catalogue very useful in selling stock items instead of special work, which greatly increases the cost.
- The layout of each item is shown so that glass sizes can be easily found, also style of sticking and arrangement of panels.
- The opening size of two and four light windows we have not specified, as different openings are used in different localities.
- For Ohio openings add  $4\frac{1}{2}$  inch to width and  $6\frac{1}{8}$  inch to height of glass.
- For New York openings add 4 inch to width and 6 inch to height of glass.
- If our customers will follow the catalogue closely in placing orders, giving door numbers, size and thickness and kind of wood, they can be assured the best service to be had in this or any other market.
- With our complete stocks in Cleveland, Buffalo and Rochester, and our own factory in Albuquerque, New Mexico, we are at all times in position to fill orders for stock items promptly.
- Prices on all items in this book will be found in our Dealers Price Guide which is issued whenever market prices change.

The Whitmer-Jackson Co.

Cleveland, Ohio

Buffalo, New York

Rochester, New York

Albuquerque, New Mexico

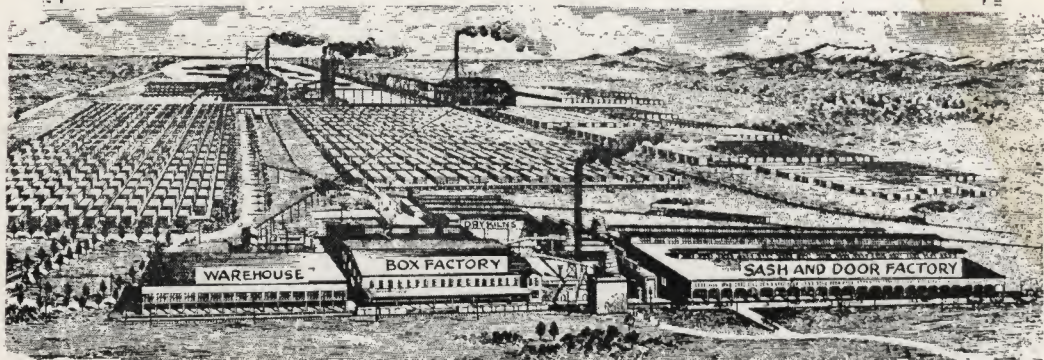

# THE WHITMER-JACKSON CO

WE specialize in factory shipments of combination cars including the following items made from famous New Mexico and Arizona Soft White Pine which is the nearest in texture to Michigan and Wisconsin Cork Pine:-

Sash Doors	Cross Panel Doors	Four Panel Doors
Screen Doors, not wired		No. 59 Two Panel Doors
No. 60 One Panel Doors	No. 61 Two Vert Panel Doors	
One Panel Cupboard Doors	Cross Panel Cupboard Doors	
Open Windows and Sash		Cupboard Sash
K. D. Windows and Sash	Sash Sticking	Mouldings

Birds-Eye View of Saw Mill, Lumber Yard, Box Factory, Sash and Door Factory  
Albuquerque, New Mexico

# THE WHITMER-JACKSON CO.

## DIRECTIONS FOR ORDERING

Time, Annoyance and Expense Can Be Saved by Noting and Following  
Closely the Suggestions Below:

Our Cleveland Warehouse carries only Ohio opening windows and sash, so we will understand that orders sent to Cleveland are for Ohio openings, unless specified otherwise.

Buffalo and Rochester Warehouses carry both Ohio and New York openings, so it will be necessary in ordering from them to state whether Ohio openings or New York openings are wanted.

In ordering pairs of French or Casement sash always give the full opening and the number and arrangement of lights in each sash, and state whether pairs are to be rabbeted, and if swing-in sash, state whether bottom rail is to be rabbeted for sill drip.

Be explicit in ordering. Do not assume that we know what you want.

Always give width first, length or height second, then thickness.

Always use inches to designate glass size, and feet and inches for openings or outside measurement.

### SASH AND WINDOW

The term "Sash" indicates only one piece to fill opening.

The term "Window" indicates two pieces (upper and lower sash).

When an odd sash or window is ordered always give both glass size and number of lights and outside opening, and, if possible, send sketch.

### DOORS

State width, height and thickness, number of panels and arrangement of same and quality and kind of wood.

State style of sticking.

If moulded, state whether flush or raised mould one or two sides.

If odd send sketch or detail.

Odd doors will be made with regular stock widths of stiles, rails, muntins and panels unless specifically ordered otherwise.

# THE WHITMER-JACKSON CO

## OFFICIAL GRADES SASH, DOORS AND BLINDS

Adopted by the Wholesale Sash, Door and Blind Manufacturers' Association  
of the Northwest

### DOORS

**No. 1 Quality.** Material in No. 1 Doors must be Clear, with the water stains and small pin knots not exceeding one-fourth ( $\frac{1}{4}$ ) inch in diameter may be admitted. No piece to contain more than one (1) such defect and no door more than a total of five (5) such defects; white sap not considered a defect. Workmanship must be good.

**No. 2 Quality.** Material in No. 2 Doors may contain knots not to exceed one ( $\frac{1}{2}$ ) inch in diameter and blue sap showing on one or both sides not to exceed twenty-five (25) per cent of the entire door surface, and gum spots showing on one (1) side of a piece only and other slight defects, shall not exceed eight (8) in number on each side and each white pine stile, bottom and lock rail must contain at least one (1) and not to exceed two (2) such defects; plugs admitted and not regarded as a defect. Slight defects in workmanship admitted.

**No. 3 Quality.** Material for No. 3 Doors may contain all stained sap and small worm holes and fine shake; also knots not exceeding one and three-fourths ( $1\frac{3}{4}$ ) inches in diameter. Twenty (20) defects may be allowed on each side, also slight defects in workmanship. Each piece of white pine in a No. 3 Door must contain a defect. Not more than six (6) defects allowed in any one piece.

**No. 4 Quality.** No. 4 Doors are regarded as a cull door and must contain large coarse knots and may contain rot, worm holes, shake and other serious defects.

A standard door may be through tennon, blind tennon or doweled.

### WINDOWS

Check Rail Windows may contain one (1) knot one-fourth ( $\frac{1}{4}$ ) inch in diameter in each piece of a window. White sap may be admitted. Workmanship must be good.

Plain Rail Windows and Sash may contain blue sap and small knots.

### BLINDS

**No. 1 Outside Blinds** for paint must be made of sound lumber and may contain small sound pin knots, water stain and white sap. Slight imperfections in workmanship also admitted.

**No. 2 Outside Blinds** must be made of sound stock which may contain sound knots up to one half ( $\frac{1}{2}$ ) inch in diameter and any amount of either white or blue sap. Slight imperfections in workmanship admitted.

### WOODS ADMISSIBLE

Woods other than Michigan, Wisconsin and Minnesota or Western Pine may be admitted in Doors, Blinds and Windows.

THE WHITMER-JACKSON CO.

# Universal Price List

of

## Sash and Doors

The Window and Sash list on pages 8 to 23 inclusive is that adopted April 10, 1919, by The Sash, Door and Blind Manufacturers Association.

The Door list on page 33 is the new single list adopted January 1, 1923, by The Sash, Door and Blind Manufacturers Association.

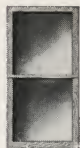

### NOTE

All designs and grades of Softwood Panel Doors take the same list, the price being regulated by the different discounts allowed.

## Metal Building Material

### Metal Basement Column

Strong, neat, fire-resisting, taking less room than masonry piers, these columns or stanchions offer an ideal means of support for the building. They are quickly installed and economical in first cost, being made of reclaimed pipe, thoroughly painted and provided with cap and base. They are supplied in 4-inch and 5-inch diameters and in the four following lengths.

Shipg. Wt.				Shipg. Wt.			
Length 4-in.		5-in.		Length 4-in.		5-in.	
6'	32	78	7'	41	92		
6' 6"	34	85	7' 6"	47	99		

Special lengths cut to order

### Metal Clothes Post

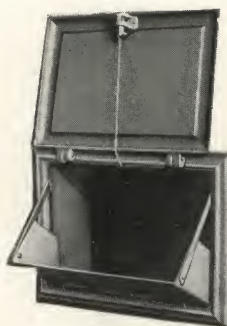

Solves the question of a neat, serviceable, permanent clothes post, which, properly installed, will remain upright for many years. It is made of reclaimed pipe, 2 3/4 inches in diameter, with cross cleat inserted near top for attaching clothes line.

These posts cost less than a wooden post and have every advantage of strength, neatness, resistance to weather and rough usage. They are 9 1/2 feet in length and are usually placed in the ground 2 1/2 feet, with or without concrete. The former method of installing is preferable. Shipping weight, 34 pounds.

### Coal Chutes

Are of the most substantial construction, with cast-iron frame and heavy gauge steel. Two types of door are offered, a solid cast-iron door or a cast-iron door with heavy mesh glass light. Steel shield is hinged to the latter so that it protects the glass when door is raised, but does not obstruct light when it is closed. Hinged steel hopper is optional, often omitted if wagon chute is used. These Coal Chutes do not become marred. They protect the building from coal and are burglar proof. Automatic latch is released from within by chain, without entering the coal bin.

No.	Wall	Opg.	Body	Shipping	Door	Hop-

THE WHITMER-JACKSON CO.

## Fenestra Metal Basement Sash Combined with Frame

Four sizes in stock for immediate shipment.

### Advantages to Home Owners and Builders.

They come assembled—sash, frame and hardware all ready to install.

They are already painted—one priming coat—before they are shipped from the factory.

They are less bulky than wood windows, and, therefore, much easier to handle.

They stand upright on the sill without bracing—a big help to the mason.

The mason does the entire work of installation—wood windows require the work of a mason, a carpenter and a painter.

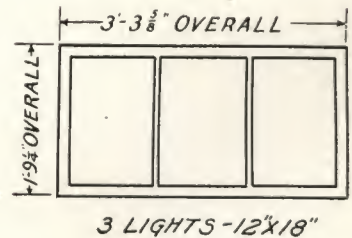

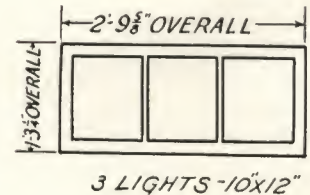

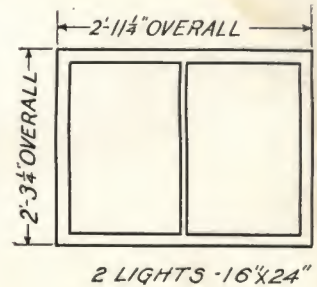

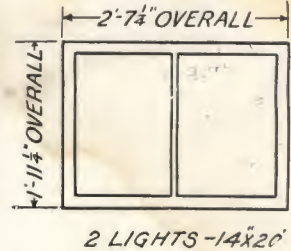

They save time—a Fenestra Basement Window can be installed in about one-eighth the time required for a wood window.

By removing two cotter pins, the sash may be taken out of the frame, and their accurate manufacture makes them interchangeable.

They are adaptable to any type of construction—as easy to set in poured concrete or concrete block as in brick.

They are very easy to screen, screw holes being provided for that purpose.

Four Standard Sizes.

For prices see DEALERS PRICE GUIDE.
